

SUBJECT INDEX

- Abortion and hypofibrinogenemia 149
 —, Induction of — by intraovular instillation
 of hypertonic saline 137
 —, Intravenous infusion as a complication in
 therapeutic — by the intrauterine extra-
 ovular hypertonic saline method..... 143
 Abruptio placentae. Treatment of haemorrhagic
 diathesis by epsilon-amino-caproic acid and
 human fibrinogen in a case of 179
 Actinomycotic abscess of the brain in a patient
 with congenital heart disease..... 61
 Aldactone. Administration of — as a source of
 error in determination of fractionated 17-keto-
 steroids in urine 51
 Adenosine-5-phosphatase. Determination of serum
 — and alkaline phosphatase in liver and
 bone diseases 46
 Alkaline phosphatase. Determination of serum
 adenosine-5-phosphatase and — in liver
 and bone diseases 46
 — phosphatases. Leukocytic — in haemato-
 logy 171
 Anabolic hormone. Treatment of underweight
 senile patients with — 33
 Anaemia. Foetomaternal transplacental bleeding
 as a cause of neonatal — and foetal death.... 132
 Arthritis. Determination of gold in synovial fluid
 from patients with — by means of ultraviolet
 emission spectrography 229
 Avoidance behavior. Conditioned — of cats with
 pallidal lesions 21

 Bladder. Intracavitary radium therapy of —
 tumours 189
 Bleeding. Foetomaternal transplacental — as a
 cause of neonatal anaemia and foetal death 132
 —, Incidence of — with clot retention in
 suprapubic prostatectomy 207
 Blindness. The causes of — 185
 Blood. Foetal erythrocytes and foetal haemoglo-
 bin in the — of pregnant and non-pregnant
 subjects 203
 —, The relative haemoglobin, iron, vitamin
 B₁₂ and folic acid values in the — of
 mothers and their newborn infants 157
 —, Vacuolized lymphocytes in peripheral —
 as a screening test in progressive neuro-
 logical diseases 83
 Bone. Determination of serum adenosine-5-phos-
 phatase and alkaline phosphatase in liver and
 — diseases 46
 Boys. Recurrences and complications after ingui-
 nal herniotomy in — 242
 Brain. Actinomycotic abscess of the — in a pa-
 tient with congenital heart disease..... 61
 Brain tissue. Electrophoresis and immuno-elec-
 trophoresis of extractable proteins in — 9

 B₁₂. Measurement of plasma radioactivity fol-
 lowing oral administration of ⁵⁷Co-labelled — 167

 Cancer. Detection of preinvasive — by the irriga-
 tion smear technic 121
 —, Tobacco and lung — 99
 Carbon monoxide. Lung weight in — deaths 55
 Carcinoma. Cause of delay in diagnosis and
 treatment in — of the cervix 117
 Cats. Conditioned avoidance behavior of — with
 pallidal lesions 21
 Cerebrospinal fluid. C-reactive protein in — 14
 — —, Some recent methods for fractionation
 of proteins employed in diagnostic examin-
 ation of — 1
 Cervix. Cause of delay in diagnosis and treatment
 in carcinoma of the — 117
 Cholinesterase. Electrophoretic mobility of siali-
 dase-treated human serum 16
 Clot retention. Incidence of bleeding with — in
 suprapubic prostatectomy 207
 Colon. Gestagen treatment of endometriosis of
 the — 152
 Complication. Intravenous infusion as a — in
 therapeutic abortion by the intrauterine extra-
 ovular hypertonic saline method..... 143
 Complications. Recurrences and — after inguinal
 herniotomy in boys 242
 Cortical cells. Responses of single — of monkey
 to monochromatic flashes..... 19
 C-reactive protein in cerebrospinal fluid 14
 Cytomegalic inclusion disease 87

 Danish. The — health insurance system 214
 —, Von Willebrand-Jürgens disease in a —
 family 65
 Deaths. Lung weight in carbon monoxide — 55
 Diagnosis. Cause of delay in — and treatment in
 carcinoma of the cervix 117
 Diathesis. Treatment of haemorrhagic — by ep-
 silon-amino-caproic acid and human fibrino-
 gen in a case of abruptio placentae..... 179
 Disease. Cytomegalic inclusion — 87
 Dizziness. Hearing impairment and — in sar-
 coidosis 28

 Electromyography. Motor nerve conduction, —
 and strength-duration curves 23
 Electron microscopy. The fine structure of the Z
 disc in skeletal muscle revealed by — 18
 Electrophoresis and immuno-electrophoresis of
 extractable proteins in brain tissue..... 9
 Electrophoretic mobility of sialidase-treated hu-
 man serum cholinesterase..... 16
 Endometriosis. Gestagen treatment of — of the
 colon 152
 Epilepsy. Trimethadione in serum of patient with
 petit mal — 74

Epsilon-amino-caproic acid. Treatment of haemorrhagic diathesis by — and human fibrinogen in a case of abruptio placentae	179	Immuno-electrophoresis. Electrophoresis and — of extractable proteins in brain tissue	9
Erythrocytes. Foetal — and foetal haemoglobin in the blood of pregnant and non-pregnant subjects	203	Infants. The relative haemoglobin, iron, vitamin B ₁₂ and folic acid values in the blood of mothers and their newborn —	157
Excretion. Urinary — of 5-hydroxyindoleacetic acid during the menstrual cycle	39	Intraovular instillation. Induction of abortion by — of hypertonic saline	137
—, Uropepsin — in patients with recurrent peptic ulcer	52	Intravenous infusion as a complication in therapeutic abortion by the intrauterine extraovular hypertonic saline method	143
Fibrinogen. Treatment of haemorrhagic diathesis by epsilon-amino-caproic acid and human — in a case of abruptio placentae	179	Iron. The relative haemoglobin, —, vitamin B ₁₂ and folic acid values in the blood of mothers and their newborn infants	157
Foetal death. Foetomaternal transplacental bleeding as a cause of neonatal anaemia and — erythrocytes and foetal haemoglobin in the blood of pregnant and non-pregnant subjects	132	Irrigation smear. Detection of preinvasive cancer by the — technic	121
Foetomaternal transplacental bleeding as a cause of neonatal anaemia and foetal death	203	—, The —	127
Folic acid. The relative haemoglobin, iron, vitamin B ₁₂ and — values in the blood of mothers and their newborn infants	132	17-Ketosteroids. Administration of aldactone as a source of error in determination of — in urine	51
Fractionation. Some recent methods for — of proteins employed in diagnostic examination of cerebrospinal fluid	1	Leuco-agglutinins. The significance of — for development of transfusion reactions	198
Gestagen treatment of endometriosis of the colon	152	Leukocytic alkaline phosphatases in haematology	171
Gold. Determination of — in protein-containing fluids by means of ultraviolet emission spectrography	221	Liver. Determination of serum adenosine-5-phosphatase and alkaline phosphatase in — and bone diseases	46
—, Determination of — in synovial fluid from patients with arthritis by means of ultraviolet emission spectrography	229	Lung. Tobacco and — cancer	99
Gout. Concurrence of — and renal papillary necrosis	93	Lung weight in carbon monoxide deaths	55
Haemoglobin. Foetal erythrocytes and foetal — in the blood of pregnant and non-pregnant subjects	203	Lymphocytes. Vacuolized — in peripheral blood as a screening test in progressive neurological diseases	83
—, The relative —, vitamin B ₁₂ and folic acid values in the blood of mothers and their newborn infants	157	Magnesium. Plasma and urinary — concentrations in patient with renal insufficiency	235
Haematology. Leukocytic alkaline phosphatases in —	171	Menstrual cycle. Urinary excretion of 5-hydroxyindoleacetic acid during the —	39
Health insurance. The Danish — system	214	Monkey. Responses of single cortical cells of — to monochromatic flashes	19
Hearing impairment and dizziness in sarcoidosis	28	Monochromatic flashes. Responses of single cortical cells of monkey to —	19
Heart disease. Actinomycotic abscess of the brain in a patient with congenital —	61	Mothers. The relative haemoglobin, iron, vitamin B ₁₂ and folic acid values in the blood of — and their newborn infants	157
Herniotomy. Recurrences and complications after inguinal — in boys	242	Motor nerve conduction, electromyography and strength-duration curves	23
Hydrocortisone. The plasma — level during prednisolone administration as a measure of pituitary function	210	Muscle. The fine structure of the Z disc in skeletal — revealed by electron microscopy	18
5-hydroxyindoleacetic acid. Urinary excretion of — during the menstrual cycle	39	Neonatal. Foetomaternal transplacental bleeding as cause of — anaemia and foetal death	132
Hypertonic saline. Induction of abortion by intraovular instillation of —	137	Nerve conduction. Motor —, electromyography and strength-duration curves	23
—, Intravenous infusion as a complication in therapeutic abortion by the intrauterine extraovular — method	143	Neurological diseases. Vacuolized lymphocytes in peripheral blood as a screening test in progressive —	83
Hypofibrinogenemia. Abortion and —	149	Operation. Hypothermia and controlled hypotension employed in an — during pregnancy	250
Hypotension. Hypothermia and controlled — employed in an operation during pregnancy	250	Pallidal lesions. Conditioned avoidance behavior of cats with —	21
Hypothermia and controlled hypotension employed in an operation during pregnancy	250	Peptic ulcer. Uropepsin excretion in patients with recurrent —	52
		Petit mal. Trimethadione in serum of patients with — epilepsy	74
		Pituitary function. The plasma hydrocortisone level during prednisolone administration as a measure of —	210

Plasma and urinary magnesium concentrations in patients with renal insufficiency	235	Spectrography. Determination of gold in protein-containing fluids by means of ultraviolet emission —	221
Plasma. Measurement of — radioactivity following oral administration of ⁵⁷ Co-labelled B ₁₂	167	— . Determination of gold in synovial fluid from patients with arthritis by means of ultraviolet emission —	229
— . The — hydrocortisone level during prednisolone administration as a measure of pituitary function	210	Stomach. Volvulus of the —	246
Polyneuropathy. Subclinical —	26	Structure. The fine — of the Z disc in skeletal muscle revealed by electron microscopy	18
Postoperative course. Preoperative clinical condition and — in prostatic hypertrophy	80	Synovial fluid. Determination of gold in — from patients with arthritis by means of ultraviolet emission spectroscopy	229
Prednisolone. The plasma hydrocortisone level during — administration as a measure of pituitary function	210	Therapeutic abortion. Intravenous infusion as a complication in — by the intrauterine extravascular hypertonic saline method	143
Pregnancy. Hypothermia and controlled hypotension in an operation during —	250	Therapy. Intracavitary radium — of bladder tumours	189
Pregnant. Foetal erythrocytes and foetal haemoglobin in the blood of — and non-pregnant subjects	203	Tobacco and lung cancer	99
Preinvasive cancer. Detection of — by the irrigation smear technic	121	Transfusion reactions. The significance of leucoagglutinins for development of —	198
Preoperative clinical condition and postoperative course in prostatic hypertrophy	80	Transplacental. Foetomaternal — bleeding as a cause of neonatal anaemia and foetal death ..	132
Prostatectomy. Incidence of bleeding with clot retention in suprapubic —	207	Treatment. Gestagen — of endometriosis of the colon	152
Prostatic hypertrophy. Preoperative clinical condition and postoperative course in —	80	Treatment of haemorrhagic diathesis by epsilon-amino-caproic acid and human fibrinogen in a case of abruptio placentae	179
Protein. C-reactive — in cerebrospinal fluid	14	Treatment of underweight senile patients with anabolic hormone	33
Protein-containing. Determination of gold in — fluids by means of ultraviolet emission spectroscopy	221	Trimethadione in serum of patients with petit mal epilepsy	74
Proteins. Electrophoresis and immuno-electrophoresis of extractable — in brain tissue	9	Tumours. Intracavitary radium therapy of bladder —	189
— . Some recent methods for fractionation of — employed in diagnostic examination of cerebrospinal fluid	1	Ulcer. Uropepsin excretion in patients with recurrent peptic —	52
Radioactivity. Measurement of plasma — following oral administration of ⁵⁷ Co-labelled B ₁₂	167	Urinary excretion of 5-hydroxyindoleacetic acid during the menstrual cycle	39
Radium therapy. Intracavitary — of bladder tumours	189	Urinary. Plasma and — magnesium concentrations in patients with renal insufficiency	235
Renal insufficiency. Plasma and urinary magnesium concentrations in patients with —	235	Uropepsin excretion in patients with recurrent peptic ulcer	52
Renal papillary necrosis. Concurrence of gout and —	93	Vacuolized lymphocytes in peripheral blood as a screening test in progressive neurological diseases	83
Sarcoidosis. Hearing impairment and dizziness in —	28	Vitamin B ₁₂ . The relative haemoglobin, iron, and folic acid values in the blood of mothers and their newborn infants	157
Screening test. Vacuolized lymphocytes in peripheral blood as a — in progressive neurological diseases	83	Volvulus of the stomach	246
Senile patients. Treatment of underweight — with anabolic hormone	33	Von Willebrand-Jürgens disease in a Danish family	65
Serum. Determination of — adenosine-5-phosphatase and alkaline phosphatase in liver and bone diseases	46	Z disc. The fine structure of the — in skeletal muscle revealed by electron microscopy	18
— . Trimethadione in — of patients with petit mal epilepsy	74
